CHANDRAKANT CHODANKAR

Entry-Level Software Developer | Frontend, Full-Stack & AI Tools

8275382359 • chandrakantchodankar06@gmail.com • Goa, India • LinkedIn • GitHub

PROFILE

Computer Engineering graduate with hands-on experience building web applications using HTML, CSS, JavaScript, React and Next.js. Currently expanding into full-stack development with Node.js, Express, PostgreSQL and Prisma, while developing practical knowledge of AI tools, agentic AI, automation and AI-assisted development. Seeking an entry-level software, frontend or full-stack role where I can contribute, learn and build real-world products.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS
Backend & Data:	Node.js, Express.js, PostgreSQL, Prisma ORM, MySQL, MongoDB, REST APIs, JWT, basic RBAC
AI & Automation:	AI Agents, Agentic AI concepts, Prompt Engineering, AI-assisted Development, Claude Skills, Grok Bots, n8n, Lovable
Programming:	Python, C, C++
Tools:	Git, GitHub, Postman / Thunder Client, VS Code, Netlify, Vercel
Creative AI:	AI Image Generation, AI Video Generation, Creative Prompting

EXPERIENCE

Web Developer Intern — The Grit City | [Aug 2023 - Sept 2023]

• Built the AGH Advisors website using Wix Studio, including home, about, contact, services, case studies and blog sections.

• Gained hands-on experience translating content and requirements into a usable client-facing website.

PROJECTS

World Explorer — React, Axios, REST API

• Built a React application that consumes live country data from a public REST API, with search/filtering and dynamic UI rendering.

[Live Demo] • [GitHub]

Pokémon App — React, PokéAPI

• Built a React application using PokéAPI with search, component state management and responsive card-based UI.

[Live Demo] • [GitHub]

Cashew Apple Fruit Quality Grading — Python, Deep Learning

• Developed an image-classification project to grade cashew apple fruit quality, applying deep-learning concepts to a real classification problem.

[GitHub]

EDUCATION

Bachelor of Engineering (BE) — Computer Engineering | Angel Institute of Technology & Design, Mapusa, Goa | 2021–2024 | 69%

Diploma — Electronics & Communication Engineering | Government Polytechnic, Bicholim | 2018–2021 | 73%

AI & CONTINUOUS LEARNING

Currently learning and experimenting with AI agents, agentic AI concepts, AI-assisted development, prompting, automation workflows, AI tools. Recent hands-on exposure includes n8n, Lovable, Base44, Claude Skills, Grok Bots, ChatGPT, Gemini and other AI tools.

ADDITIONAL

Open to entry-level Frontend, Software Development and Full-Stack opportunities. Available immediately.
